CERTIFICATE FOR EXPORT OF BEEF AND BEEF PRODUCTS TO CUBA

DATE ISSUED _____ CERTIFICATE NUMBER _____

1. The animals from which the meat is derived were born in the United States or were legally imported from countries free of OIE List A diseases affecting the bovine species and that are of concern in meat, including foot and mouth disease, rinderpest (bovine plague), bovine contagious pleuropneumonia and bovine spongiform encephalopathy.

2. The establishments where animals are slaughtered and processed for export are under official supervision by USDA-FSIS.

3. The animals from which the meat originates were not slaughtered as a result of any infectious, contagious, or parasitic disease eradication program. The animals from which the meat originates received ante- and post-mortem inspections. These animals were found healthy and free of clinical signs of disease, including brucellosis, tuberculosis, and all List A diseases which affect the species and may be carried through meat. The meat is free for sale for human consumption and is deemed by the Official Veterinary Service to not pose a risk of transmission of brucellosis or tuberculosis.

4. The animals from which the meat is derived were not subjected to hormonal, therapeutic or nutritional treatments other than those permitted in the United States.

5. Based on the National Residue Program, the meat does not contain residues or metabolites of antibiotics, growth promoting substances, anthelmintics, tranquilizers, pesticides or any other therapeutic or prophylactic agents in quantities exceeding established tolerance levels.
